GRADE 3 LANGUAGE ARTS CURRICULUM SPECIFICATIONS

The Language Arts Curriculum Specifications for Achievement Tests in Grade 3 were prepared in July, 1981, by a committee of classroom teachers, Language Arts consultants, and Alberta Education personnel under the direction of the Curriculum Branch. These specifications were revised and validated in January, 1982. Alberta Education acknowledges with appreciation the contributions of the members of the Grade 3 Language Arts Committee.

K. Nixon, Alberta Education, CHAIRMAN
M. Thornton, Alberta Education
B. Honert, Alberta Education
G. Alexandruk, Edmonton Public School Board
J. Hoeft, Calgary Board of Education
J. Schreiber, St. Albert Protestant Separate School Board
N. Scott, Fort McMurray School District

Two major criteria for the Grade 3 Language Arts Achievement Tests were used as the basis underlying the *curriculum specifications* for the tests.. They are:

1. to be based wholly on the *Program of Studies for Elementary Schools, 1978* (amended 1981).
2. to reflect the wholeness of the Language Arts program through integrating a taxonomy of levels of *thinking* with the various *communication skills*. These include the receptive components of listening, viewing, reading, and the expressive components of speaking and writing.

WEIGHTING FACTORS

Varied emphases are reflected in the system of weighting *frequency* (time spent) and *importance*.

1. Time Factor

The Curriculum Specifications Committee recommended frequency ratings from 5 (high frequency) to 1 (low frequency) comparable to the amount of time spent in class mastering the various *concepts* (e.g. Supporting Details) and percentage weightings on the Language Arts *skills* (e.g. Listening). When and where percentage weightings are given, a range from 5 to 10 per cent exists. For example, it is advised that 20 - 30 per cent of class time be spent on *writing concepts* while a large amount of class time be spent on *main idea* because it is categorized as a 5.

2. Importance Factor

The *importance* factor, separate from the *time* factor, is represented by the letters A, B, C, D as follows:

- A - Extremely important
- B - Very important
- C - Important
- D - Somewhat important

The objective *main idea* weighted 5A, therefore, means a large amount of time is spent on it (5) and it is very important (A). [See Table 3]

For further clarification of *curriculum specification* concepts, readers should refer to the concept and skill statements in the *Program of Studies for Elementary Schools, 1978* (revised 1981).

Table 1 outlines the percentage range of classroom time suggested for each of the communications skills. Table 2 outlines the time suggested for each of the taxonomic levels. Table 3 presents detailed *curriculum specifications*.
